Management's Report

Management's Responsibility for the Financial Statements

The financial statements have been prepared by management in accordance with Canadian accounting standards for pension plans and the integrity and objectivity of these statements are management's responsibility. Management is responsible for the notes to the financial statements and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

Management is responsible for implementing and maintaining a system of internal control to provide reasonable assurance that reliable financial information is produced.

The Minister of Finance, Energy and Municipal Affairs is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Minister reviews internal financial reports on a regular basis and externally audited financial statements yearly.

The Auditor General conducts an independent examination, in accordance with Canadian generally accepted auditing standards and expresses her opinion on the financial statements. The Auditor General has full and free access to financial information and management of the Prince Edward Island Civil Service Superannuation Fund to meet when required.

On behalf of the Prince Edward Island Civil Service Superannuation Fund

Mr. David Arsenault, FCA
Deputy Minister, Department of Finance,
Energy and Municipal Affairs

Mr. Terry Hogan
Manager, Pension and Benefits

September 24, 2014

INDEPENDENT AUDITOR'S REPORT

Honourable Wesley J. Sheridan
Minister
Department of Finance, Energy and Municipal Affairs
Province of Prince Edward Island

I have audited the financial statements of the **Prince Edward Island Civil Service Superannuation Fund** which comprise the statement of financial position as at April 1, 2011, March 31, 2012 and 2013, and the statements of changes in net assets available for benefits and changes in pension obligation for the 2012 and 2013 years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for pension plans and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted the audits in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audits to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as at April 1, 2011, March 31, 2012 and 2013, and the changes in its net assets and pension obligation for the 2012 and 2013 years then ended in accordance with Canadian accounting standards for pension plans.

B. Jane MacAdam, CA
Auditor General

Charlottetown, Prince Edward Island

PRINCE EDWARD ISLAND CIVIL SERVICE SUPERANNUATION FUND

Notes to Financial Statements
March 31, 2013

1. Plan Description

The following description of the Prince Edward Island Civil Service Superannuation Pension Plan (the Plan) is a summary only. For more complete information, reference should be made to the *Civil Service Superannuation Act* and *Regulations*.

a) General

The Plan is a contributory defined benefit plan covering members as defined in the *Civil Service Superannuation Act*.

b) Contributions

Under the Plan, employees and employers make equal contributions amounting to 7.09 percent of that part of the members' salary up to the amount of the year's maximum pensionable earnings (YMPE) as defined in the *Canada Pension Plan Act* and 8.75 percent on the amount that exceeds the YMPE.

Effective January 1, 2013, contribution rates for the Plan increased to 8.09 percent of pensionable earnings up to and including the YMPE and 9.75 percent of pensionable earnings above the YMPE.

c) Retirement Benefits

A member who has attained the age of 60, and has completed at least two years of service, or has attained the age of 55 and has completed 30 years of pensionable service is entitled to an unreduced pension which is payable in equal monthly installments.

The annual amount of the pension is equal to two percent of the average salary of the member in the three year period of pensionable service during which such average salary is highest, multiplied by the number of years of pensionable service. When the member reaches the age of 65 (or if he or she is 65 or over at retirement) the amount of pension described above is integrated with the Canada Pension Plan. The pension is reduced by 0.7 percent of the average salary up to the average YMPE during the three year period over which the average salary has been computed, multiplied by the number of years of the member's pensionable service after July 1, 1966, or July 1, 1972, depending on the election of the member, and payment of the required contributions to be eligible for the smaller offset.

Reduced benefits are available at age 55 with two years pensionable service. The pension for a member who retires prior to age 60 (and who is not entitled to an unreduced pension) is calculated as described in the previous paragraph but then is reduced by 0.25 percent for each month by which the early retirement date precedes the member's earliest unreduced retirement age. It is calculated by using the lesser of the number of months between the date of actual retirement and the date the member would attain age 60 or the number of months between the date of actual retirement, and the date the member would have at least 30 years of service.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

1. Plan Description (continued...)

c) Retirement Benefits (continued...)

The above formula determines the amount of a member's initial pension at retirement. In subsequent years, the amount of a member's pension is increased in line with increases in the Consumer Price Index. The increase in any one year is limited to no more than six percent.

d) Death Benefits

On the death of a member prior to completing two years of pensionable service, or after completing two years of service but leaving no surviving spouse, or dependent children, the member's accumulated contributions with interest will be refunded. If a member dies prior to retirement but after completing two years of service, the member's spouse is entitled to an immediate lifetime pension equal to 60 percent of the accrued, unreduced pension of the member at the time of death. In addition to the spousal pension, an allowance equal to one-sixth of the pension paid to the surviving spouse is payable in respect of each dependent child, up to a maximum of four children, until the child attains the age of 18 or until the age of 21 if the child is attending school full-time.

e) Termination and Portability of Benefits

In the event of termination of employment for reasons other than retirement or death, a member may elect to receive either:

- a refund of the member's own contribution with interest, or
- if the member has completed at least two years of service, a deferred pension commencing when the member attains the age of 60.

Where there are portability arrangements between the Plan and other plans, members may be able to carry certain pension rights to those other plans or transfer contributions and service from those other plans to increase pension benefits under the Plan.

f) Marriage Breakdowns

Upon application, the pension benefits to which a person is entitled may be divided between the person and the spouse or former spouse.

g) Income Tax

The Fund is a Registered Pension Plan as defined under the federal *Income Tax Act* and is not subject to taxation.

PRINCE EDWARD ISLAND CIVIL SERVICE SUPERANNUATION FUND

Notes to Financial Statements
March 31, 2013

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements for the year ended March 31, 2013, have been prepared in accordance with Canadian accounting standards for pension plans as outlined in the Chartered Professional Accountants of Canada (CPA) Handbook Section 4600, Pension Plans. For accounting policies that do not relate to either investments or pension obligations, the Fund has elected to comply on a consistent basis with accounting standards for private enterprises (ASPE) in Part II of the CPA Handbook. To the extent that ASPE in Part II is inconsistent with Section 4600, Section 4600 takes precedence. Prior period financial statements were prepared in accordance with Canadian generally accepted accounting principles for the private sector. The adoption of accounting standards for pension plans has been applied retroactively. The application of the new accounting framework did not affect previously reported results. Impacts on the financial statements were limited to presentation and disclosure.

These financial statements are prepared on a going concern basis and present the aggregate financial position of the Fund as a separate reporting entity.

a) Use of Estimates and Measurement Uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for pension plans requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenues and expenses during the period. Items requiring the use of significant estimates include investments, accrued interest, accrued liabilities, and the accrued pension obligation.

Estimates are based on the best information available at the time of preparation of the financial statements and are reviewed annually to reflect new information as it becomes available. Measurement uncertainty exists in these financial statements. Actual results could differ from these estimates and the differences could be material.

b) Foreign Currency Translation

Transactions denominated in foreign currencies are translated into Canadian dollars at the rate of exchange prevailing on the transaction date. The fair value of foreign investments and cash held at year-end are translated at the rates in effect at that date. The resulting gain or loss from changes in these rates is included in the current period change in fair value of investments.

c) Fair Value Measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

PRINCE EDWARD ISLAND CIVIL SERVICE SUPERANNUATION FUND

Notes to Financial Statements
March 31, 2013

2. Summary of Significant Accounting Policies (continued...)

c) Fair Value Measurement (continued...)

When available, the Fund measures the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If a market for a financial instrument is not active, then the Fund establishes fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties (if available), reference to the current fair value of other instruments that are substantially the same, and/or discounted cash flow analysis.

d) Financial Instruments

The Fund's financial instruments include cash, contributions and other receivables, accrued interest, notes receivable, investments, accounts payable, accrued liabilities, amounts due to the Province of Prince Edward Island, income taxes payable, investment fees payable, and other remittances payable. Due to their nature, the Fund's financial instruments, with the exception of investments, are carried at cost which approximates their fair value. Investments are carried at fair value and are subject to interest, credit, currency, price, and liquidity risks as described in Note 3.

e) Investments

Investments represent a pool of assets held in a master trust and allocated to each member by units of participation. The Prince Edward Island Master Trust represents a contract between the members (contributors) and the trustee (Minister of Finance, Energy and Municipal Affairs). All investments held by the Master Trust are classified as held for trading. Investments are designated at fair value through the statement of changes in net assets available for benefits. Investment purchase and sale decisions are based on their fair value in accordance with the Master Trust's Statement of Investment Policies and Procedures. Significant accounting policies for the pool of assets held in the Master Trust consist of:

(i) Investment transactions

Investment transactions are recognized on the transaction date. Distributions are recognized on the record date. Investments include receivables and payables at March 31, 2013, for interest, dividends, and settled derivative contracts.

(ii) Income recognition

Income from investments is recorded on an accrual basis and includes interest and dividends as well as gains and losses that have been realized on disposal of investments and the unrealized gains and losses on investments.

PRINCE EDWARD ISLAND CIVIL SERVICE SUPERANNUATION FUND

Notes to Financial Statements
March 31, 2013

2. Summary of Significant Accounting Policies (continued...)

e) Investments (continued...)

(iii) Investment valuation

Equity and debt

Equity and debt investments are valued at fair value based on quoted market values. Changes in the market value of investments, including realized and unrealized gains and losses, are reflected in the financial statements as a change in the fair value of investments.

Equity investment in real estate

Investment in real estate is represented by an equity investment in a corporation that invests in real estate, participating mortgages, and property for development or resale. Properties within the corporation are valued annually by independent appraisers in accordance with generally accepted appraisal practices and procedures. The appraisal methodology followed is an income approach which is mainly based on discounted cash flows. In estimating future cash flows, certain assumptions are made with respect to future economic conditions and rates of return.

Pooled funds

Pooled funds are valued at the unit values supplied by the pooled fund administrator, which represents the Fund's proportionate share of underlying net assets at fair values determined using closing market prices.

Derivative contracts

The derivative contracts held by the Fund are stated at fair value and are valued using quoted market indices. Realized and unrealized gains or losses on investments from derivative contracts are included in the change in the fair value of investments.

Investment in foreign infrastructure

The Fund owns units in a foreign infrastructure partnership. The partnership invests in portfolio companies that own, operate, develop, manage, and support infrastructure assets. Fair value is based upon a number of factors, including readily available market quotes with appropriate adjustments for trading restrictions, the most recent round of financings, earning-multiple analysis using comparable companies or discounted cash flow analysis.

(iv) Transaction costs

Investment management fees are costs directly attributable to the external management of the assets. Fees incurred on the management of equity holdings in real estate are paid directly as a reduction in the fair value of the investment. Fees incurred on the management of other investments are recorded as an investment expense.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

2. Summary of Significant Accounting Policies (continued...)

f) Revenues and Expenses

Revenues and expenses are recorded on an accrual basis in the period in which the transaction or event that gave rise to the revenue or expense occurred.

g) Accrued Pension Obligation

The value of the accrued pension obligation of the Fund is based on a tri-annual actuarial valuation prepared on an accounting basis by an independent actuary using the projected unit credit method pro-rated on service and best estimate assumptions. The accrued pension obligation is measured in accordance with accepted actuarial methods using actuarial assumptions and methods adopted by the Fund. An estimated update, which is a calculation based on an extrapolation of the most recent valuation, is calculated by management at the end of each fiscal year.

h) Net Deficit

For financial statement reporting, the deficit of the Fund is based on the difference between the fair value of the Fund's net assets available for benefits and the Fund's accrued pension obligation.

3. Investments and Derivatives

a) Investments

Investments consist of units held in the Master Trust. At year-end, there were 811,740.032 units held in the Master Trust (2012 - 779,932.65), with a fair value of \$1,300.35 (2012 - \$1,230.16) per unit.

** Rounded

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

3. Investments and Derivatives (continued...)

a) Investments (continued...)

Investments include amounts which investment managers of the Master Trust have invested in their own pooled funds. The fair values of these investments are as follows:

	<u>2013</u>	<u>2012</u>
	\$	\$
Beutel Goodman & Company Ltd.	17,120,236	17,025,141
Lazard Ltd.	206,108,221	177,348,637
Baillie Gifford Overseas Ltd.	210,927,332	177,214,925
Bentall Kennedy	41,905,942	38,343,382
Greystone Real Estate Fund Inc.	29,947,154	5,104,209
Global Infrastructure Partners	<u>8,264,963</u>	<u>-</u>
Total	514,273,848	415,036,294
Fund's pro-rated share	<u>66.4353%</u>	<u>66.0273%</u>
Fund's pooled funds	<u>341,659,374</u>	<u>274,037,259</u>

b) Derivative Contracts

Derivative contracts are financial contracts, the value of which is "derived" from the value of underlying assets or exchange rates. Derivative contracts provide flexibility in implementing investment strategy.

Forward contracts are used to manage currency exposure and mitigate risk with respect to investments held in foreign currencies. The net notional amount of the currency forwards represents the volume of the outstanding transactions and serves as the basis upon which the return and market value of the contract is determined.

The following provides details of derivative contracts outstanding as of March 31, 2013.

	<u>2013</u>	<u>2012</u>
	\$	\$
Notional Amount	<u>221,514,146</u>	<u>183,685,343</u>
Fair Value	<u>3,952,017</u>	<u>(1,784,741)</u>

c) Fair Value Disclosure

Fund investment assets recorded at fair value have been categorized based upon a fair value hierarchy of significant inputs used in measuring fair value. The following fair value hierarchy table presents information about the Fund's assets measured at fair value on a recurring basis at March 31, 2013.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

3. Investments and Derivatives (continued...)

c) Fair Value Disclosure (continued...)

The three levels of the fair value hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the investment manager has the ability to access at the measurement date. Level 1 primarily includes publicly listed investments.

Level 2: Inputs other than quoted prices, that are observable either directly or indirectly, including inputs in markets that are not considered to be active. Level 2 primarily includes debt securities and derivative contracts not traded in an open market.

Level 3: Inputs that are unobservable. There is little, if any, market activity. Inputs into the determination of fair value require significant management judgement and/or estimation. Level 3 primarily consists of MAV II notes as described in section (e) of this note, and foreign infrastructure investments.

The following table illustrates the classifications of the Fund's financial instruments using the fair value hierarchy as at March 31.

	2013			Total \$
	Level 1 \$	Level 2 \$	Level 3 \$	
Canadian short-term investments	9,425,542	2,397,033	-	11,822,575

d) Investment Risk Management

Risk management relates to the understanding and active management of risks associated with all areas of the business and the associated operating environment. Investments are primarily exposed to foreign currency, interest rate volatility, market price fluctuations, credit risk, and liquidity risk. The Fund has set formal goals, policies, and operating procedures that establish an asset mix among equity and fixed income, required diversification of investments within categories, and set limits on the size of exposure to individual investments and counter parties. Risk and credit considerations are periodically assessed in consultation with external consultants, the Department of Finance, Energy and Municipal Affairs, and the Master Trust Investment Advisory Committee. Plan sponsor oversight, procedures, and compliance functions are incorporated into Fund processes to achieve consistent controls and to mitigate operational risk.

(i) Interest Rate Risk

Interest rate risk refers to the fact that the Fund's financial position will change with market interest rate changes as fixed income securities are sensitive to changes in nominal interest rates. Interest rate risk is inherent in the management of a pension plan due to prolonged timing differences between cash flows related to the Fund's assets and liabilities.

Assuming all other variables are held constant, a one percentage point change in nominal interest rates would change the fair value of the Fund by \$18.7 million.

	<u>Value of Fixed Income Securities</u>	<u>Weighted Average Duration</u>	<u>Percentage Point Change</u>	<u>Impact on Fair Value of the Master Trust</u>	<u>Fund's Pro-rated Share</u>	<u>Pro-rated Impact on Fair Value of the Fund</u>
	\$	yrs	%	\$	%	\$

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements

March 31, 2013

3. Investments and Derivatives (continued...)

d) Investment Risk Management (continued...)

(ii) Price Risk

Price risk is the risk of fluctuation in market values of investments from influences specific to a particular investment or from influences on the market as a whole. Price risk includes interest rate and foreign currency risk. Market price risk is managed by the Fund through the use of diversified investment portfolios traded on various markets and across various industries. Assuming all other variables are held constant, a 10 percent change in market values of all public equities would change the fair value of the Fund by \$69.3 million.

	<u>Value of Public Equities</u> \$	<u>Percentage Change</u> %	<u>Impact on Fair Value of the Master Trust</u> \$	<u>Fund's Pro-rated Share</u> %	<u>Pro-rated Impact on Fair Value of the Fund</u> \$
2013	1,043.2 m	10	104.3 m	66.4353	69.3 m
2012	911.3 m	10	91.1 m	66.0273	60.2 m

(iii) Credit Risk

Credit risk is the risk of loss in the event the counter party to a transaction fails to discharge an obligation and causes the other party to incur a loss. Credit risk associated with the Fund is periodically assessed in consultation with external consultants, the Department of Finance, Energy and Municipal Affairs, and the Master Trust Investment Advisory Committee.

Fixed income

The Fund is exposed to credit risk from interest earning investments at March 31, as follows:

	<u>2013</u> <u>(millions)</u> \$	<u>2012</u> <u>(millions)</u> \$
Federal government	165.8	196.1
Provincial government	22.0	83.3
Municipal government	-	2.5
Corporate	<u>323.9</u>	<u>242.0</u>
Total investment credit risk exposure	511.7	523.9
Fund's pro-rated share	66.4353%	66.0273%
Fund's investment credit risk exposure	339.9	345.9
Provincial government promissory note	<u>166.4</u>	<u>20.8</u>
Fund's total credit risk exposure	<u><u>506.3</u></u>	<u><u>366.7</u></u>

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

3. Investments and Derivatives (continued...)

d) Investment Risk Management (continued...)

(iii) Credit Risk (continued...)

Security lending

The Fund participates in a Securities Lending Program whereby it lends securities for a fee to approved borrowers. To alleviate the credit risk, borrowers must provide collateral with a value of 105 percent of the value of the securities lent. The market value of the collateral is monitored by the custodian at least daily to ensure that the 105 percent threshold is maintained. In addition, security loans are allocated across various borrowers within the program and the Fund holds indemnification coverage, which mitigates the credit and market risk on the collateral.

The fair value of security loans outstanding and collateral held is as follows:

	<u>2013</u>	<u>2012</u>
	\$	\$
Total security loans outstanding	180,123,304	147,602,532
Fund's pro-rated share	<u>66.4353%</u>	<u>66.0273%</u>
Fund's security loans outstanding	<u>119,665,457</u>	<u>97,457,967</u>
Total collateral held	189,121,227	154,988,600
Fund's pro-rated share	<u>66.4353%</u>	<u>66.0273%</u>
Fund's collateral held	<u>125,643,255</u>	<u>102,334,788</u>

Derivatives

The Fund is exposed to credit related losses in the event of non performance by counter parties to derivative financial instruments. In order to mitigate this risk, the Fund deals only with highly rated counter parties, with whom International Swap and Derivative Association agreements have been executed, normally major financial institutions with a minimum credit standard of "A" rating, as supported by a recognized credit rating agency.

Credit risk represents the maximum amount that would be at risk as at the reporting date if the counter parties failed completely to perform under the contracts, and if the right of offset proved to be non enforceable. Credit risk exposure on derivative financial instruments is represented by the receivable replacement cost of contracts with counter parties, less any prepayment collateral or margin received as at the reporting date.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

3. Investments and Derivatives (continued...)

d) Investment Risk Management (continued...)

(iv) Foreign Currency Risk

Foreign currency risk is the risk that the value of the future cash flow of the financial instrument will fluctuate because of changes in foreign exchange rates. Consequently, the Fund is exposed to the risk that the exchange rates of the various currencies may change in a manner that has an adverse effect on the value of the portion of the Fund's assets denominated in currencies other than the Canadian dollar. Foreign currency exposure arises from the holding of investments denominated in foreign currencies. A policy of hedging from 30 to 70 percent of the currency exposure is used to mitigate this risk.

The Fund's unhedged currency exposure from net investment assets as at March 31, is summarized in the following table.

	2013	2012
	(millions)	(millions)
	\$	\$
Currency		
Brazil	6.7	11.7
Switzerland	15.1	27.3
Euro Zone	41.9	62.7
United Kingdom	46.4	60.5
Hong Kong	20.0	27.0
Japan	29.6	46.9
Sweden	13.1	14.1
United States	172.2	207.9
Other	<u>40.3</u>	<u>52.7</u>
Total	385.3	510.8
Fund's pro-rated share	<u>66.4353%</u>	<u>66.0273%</u>
Fund's foreign currency exposure	<u>256.0</u>	<u>337.3</u>

After the effect of hedging, and without a change in all other variables, a 10 percent change in the Canadian dollar against all other currencies would change the fair value of the Fund by \$25.6 million.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

3. Investments and Derivatives (continued...)

d) Investment Risk Management (continued...)

(v) Liquidity Risk

Liquidity risk is the risk of not meeting the cash obligations of the Fund in an efficient manner. Cash obligations are fulfilled from contributions to the Fund, cash income of the Fund, and disposition of Fund assets as required. Cash requirements of the Fund are reviewed on an ongoing basis to provide for the orderly availability of resources to meet the financial obligations of the Fund.

The Fund's cash management policy ensures that the quality and liquidity of the investment vehicles within the portfolios are consistent with the needs of the Fund.

e) MAV II Notes

The Master Trust holds MAV II notes (originally bank-sponsored asset backed commercial paper) in its bonds, debentures, and notes portfolios. The carrying value of the MAV II notes held at March 31, 2013, was \$20,166,845 (\$23,355,585 face value less a \$3,188,740 discount). The carrying value of the MAV II notes are recorded at the amount for which they were sold subsequent to year-end.

4. Accrued Pension Obligation

a) Actuarial and Extrapolated Valuation

The present value of the accrued pension obligation was determined using the projected unit credit method pro-rated on service and management's best estimate, as at the valuation and extrapolation dates, of future economic events and involve economic and non economic assumptions. The non economic assumptions include considerations such as mortality and retirement rates. The primary economic assumptions include the return on investment, discount, inflation, and salary escalation rates.

The most recent actuarial valuation for accounting purposes prepared by the actuarial consulting firm Morneau Shepell, disclosed an unfunded liability of \$150,283,000 as at April 1, 2011. The next actuarial valuation is scheduled to be completed in 2014.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements

March 31, 2013

4. Accrued Pension Obligation (continued...)

a) Actuarial and Extrapolated Valuation (continued...)

The economic assumptions used in determining the value of the accrued pension obligation for accounting purposes were developed by reference to expected long-term market conditions. Significant actuarial assumptions used in the March 31 extrapolation were as follows:

	<u>2013</u>	<u>2012</u>
	%	%
Economic Assumptions		
Basic salary escalation rate (excluding promotional increases)	2.50	2.50
Discount rate used to determine accrued obligation	6.86	7.37
Expected rate of return on fund assets	6.86	7.37
Pension cost of living increase	2.40	2.40

	<u>2013</u>	<u>2012</u>
Non-Economic Assumptions		
Mortality	GAR94 projected to 2000 using Scale AA for both males and females.	GAR94 projected to 2000 using Scale AA for both males and females.
Retirement Age	Members are assumed to retire upon attaining "Rule of 90" (age plus credit service totals 90) but not before age 55 and not after age 63. All members, who at the valuation date have attained the retirement age under the above assumptions, are assumed to retire on the valuation date.	Members are assumed to retire upon attaining "Rule of 90" (age plus credit service totals 90) but not before age 55 and not after age 63. All members, who at the valuation date have attained the retirement age under the above assumptions, are assumed to retire on the valuation date.

b) Sensitivity of Changes in Major Assumptions

The Fund's future experience may differ from the assumptions used in the actuarial valuation and the extrapolation. Any differences between the actuarial assumptions and future experience could be significant and will emerge as experience gains or losses in future valuations which will affect the financial position of the Fund.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

5. Funding Policy

In accordance with the *Civil Service Superannuation Act*, employees are required to contribute to the Plan as described in Note 1(b). Employers match employee contributions to the Fund. Under Section 5 of the *Civil Service Superannuation Act*, payments out of the Fund are guaranteed by the Province of Prince Edward Island. Subsequent to year-end, this section of the act was rescinded as described in Note 10.

As a result of an unfunded liability at April 1, 2005, the Province of Prince Edward Island made a special contribution through the signing of a \$52,000,000 promissory note. The note, which is held by the Fund, is receivable in ten equal annual installments of \$5,200,000 beginning October 15, 2006. Interest on the note is accrued at a rate of 4.41 percent per annum, and is receivable semi-annually on April 15, and October 15. Prior to October 15, 2015, any monies owing may be suspended on six months prior notice if the Minister of Finance, Energy, and Municipal Affairs deems the funded level, excluding any outstanding balances on promissory notes, to be 90 percent on a going concern basis as defined in the Province of Prince Edward Island Funding Policy for Government Sponsored Registered Pension Plans. Interest will be accrued to the date of any suspension implemented. Any monies suspended prior to and including October 15, 2015, are no longer due and owing. Provided no further monies are payable, the promissory note shall be deemed paid in full.

The following is a schedule of principal and interest payments as disclosed in the promissory note.

<u>Date of Payment</u>	<u>Principal Payments</u>	<u>Interest Payments</u>	
	<u>Principal Payment</u> \$	<u>October 15</u> \$	<u>April 15</u> \$
October 15, 2006	5,200,000	-	1,031,940
October 15, 2007	5,200,000	1,031,940	917,280
October 15, 2008	5,200,000	917,280	802,620
October 15, 2009	5,200,000	802,620	687,960
October 15, 2010	5,200,000	687,960	573,300
October 15, 2011	5,200,000	573,300	458,640
October 15, 2012	5,200,000	458,640	343,980
October 15, 2013	5,200,000	343,980	229,320
October 15, 2014	5,200,000	229,320	114,660
October 15, 2015	<u>5,200,000</u>	<u>114,660</u>	-
	<u>52,000,000</u>	<u>5,159,700</u>	<u>5,159,700</u>

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

5. Funding Policy (continued...)

Since the promissory note was not signed until March 30, 2007, but provided for a principal payment as of October 15, 2006, additional interest was paid on the scheduled principal payment of October 15, 2006, as the first payment was not made until April 16, 2007.

As a result of an unfunded liability at April 1, 2011, the Province of Prince Edward Island made a special contribution through the signing of a \$150,761,400 promissory note. The note, issued December 11, 2012, is held by the Fund, is receivable in ten equal annual installments of \$15,076,140 beginning April 1, 2013. Interest on the note is accrued from April 1, 2012, at a rate of 2.9 percent per annum, and is receivable semi-annually on April 1 and October 1. Prior to April 1, 2022, any monies owing may be cancelled on six months prior notice if the actuary to the Plan deems the funded level, excluding any outstanding balances of this promissory note, to be 90 percent pursuant to an actuarial valuation for funding purposes conducted in accordance with accepted actuarial practice in Canada. Interest will be accrued to the date of any cancellation implemented.

The following is a schedule of principal and interest payments as disclosed in the promissory note:

<u>Date of Payment</u>	<u>Principal Payments</u>		<u>Interest Payments</u>	
	<u>Principal Payment</u>		<u>April 1</u>	<u>October 1</u>
	\$		\$	\$
April 1, 2012	-		-	2,186,041
April 1, 2013	15,076,140		2,186,041	1,967,436
April 1, 2014	15,076,140		1,967,436	1,748,832
April 1, 2015	15,076,140		1,748,832	1,530,228
April 1, 2016	15,076,140		1,530,228	1,311,624
April 1, 2017	15,076,140		1,311,624	1,093,020
April 1, 2018	15,076,140		1,093,020	874,416
April 1, 2019	15,076,140		874,416	655,812
April 1, 2020	15,076,140		655,812	437,208
April 1, 2021	15,076,140		437,208	218,604
April 1, 2022	<u>15,076,140</u>		<u>218,604</u>	-
	<u>150,761,400</u>		<u>12,023,221</u>	<u>12,023,221</u>

Subsequent to year-end, legislation was passed stating that a promissory note issued by the Government to the Fund cannot be cancelled or recalled by the Government before the maturity of the promissory note, unless the Government contributes to the Fund an asset equal to or greater than the value of the promissory note on the date the promissory note is cancelled or recalled.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

6. Operating Expenses

The Fund is charged with administrative and operating expenses. The following is a summary of these expenses.

	<u>2013</u> \$	<u>2012</u> \$
Administration expenses - pension section	830,660	638,396
- investment section	<u>92,703</u>	<u>74,144</u>
	923,363	712,540
Consulting fees	234,496	93,838
Actuarial fees	14,274	54,864
Investment expenses		
Custodian	168,015	120,899
Monitoring	130,463	187,079
Management	<u>4,228,232</u>	<u>3,299,452</u>
	<u>5,698,843</u>	<u>4,468,672</u>

7. Related Party Transactions

The Province of Prince Edward Island is the sponsor of the Plan. At the financial statement date, the Province guarantees all payments owing by the Fund and has committed to the funding requirements as defined by the Funding Policy (Note 5). Subsequent to year-end legislation was passed which changed the pension benefit guaranteed by the Province, as outlined in Note 10. As a participating employer, the Province matches regular bi-weekly employee and eligible prior period service contributions. Employee and employer contributions receivable from the Province as at March 31, 2013, totalled \$980,402 (2012 - \$1,500,714).

The Province provides pension and investment administration services to the Fund. A portion of the Province's costs relating to these services is recovered annually from the Fund. Costs recovered for the Pension section totalled \$666,700 (2012 - \$482,030) and recoveries related to the Investment section totalled \$92,703 (2012 - \$74,144). Other costs recovered by the Province totalled \$132,568 (2012 - \$125,930).

The Prince Edward Island Master Trust is not invested in debt of the Province of Prince Edward Island as of March 31, 2013 (2012 - \$4.7 million). The funds pro-rated share was \$3.1 million at March 31, 2012.

The total amount payable to the Province at March 31, 2013, was \$969,729 (2012 - \$750,295).

Total notes and interest receivable from the Province at March 31, 2013, was \$168,863,070 (2012 - \$21,220,840).

PRINCE EDWARD ISLAND CIVIL SERVICE SUPERANNUATION FUND

Notes to Financial Statements
March 31, 2013

8. Capital Management

The main objective of the Fund is to sustain a level of net assets in order to meet the pension obligations of the Fund. The Plan sponsor manages the contributions received and benefits paid as required by the *Civil Service Superannuation Act*.

In an effort to utilize economies of scale, contributions for the Province's three registered pension plans are pooled and invested together in the Province's Master Trust (the Master Trust). Each pension plan holds units of the Master Trust in proportion to the value of contributions made. The Province has developed a Statement of Investment Policies and Procedures (SIP&P) to provide the framework for how the Master Trust's assets are to be invested, monitored, and evaluated. Assets are managed by engaging knowledgeable, external investment managers who are charged with the responsibility of investing new and existing funds in accordance with the SIP&P. A Master Trust Investment Advisory Committee exists for the purpose of protecting the pension fund assets, monitoring asset mix, reviewing costs, reviewing investment returns, and assessing investment manager performance, as well as providing advice to the Minister of Finance, Energy and Municipal Affairs who serves as Trustee for the Province's three registered pension plans.

9. Commitment

The Master Trust was changed to increase the proportion of real estate investments. The Master Trust has committed to and invested a total of \$33 million in Canadian Equities Real Estate Investment.

The Master Trust has entered into an arrangement where it has committed to invest \$35 (US) million with Global Infrastructure Partners (GIP) Fund. GIP is an independent infrastructure fund manager that invests in high quality infrastructure assets in the energy, transport, water, and waste sectors; \$11.6 (US) million has been invested as of the financial statement release date.

10. Subsequent Events

a) Plan Amendments

Subsequent to the financial statement date, legislation was passed to amend the *Civil Service Superannuation Act*. These amendments take effect January 1, 2014, and are summarized as follows:

- As part of the transition to this new plan design, the Province will provide a one-time funding injection that will bring the funded status of the plan to 122 percent as at January 1, 2014. The funding injection will be made after plan amendments and assumption changes are accounted for.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements
March 31, 2013

10. Subsequent Events (continued...)

a) Plan Amendments (continued...)

- The salary component of the benefit formula will be calculated based on average indexed earnings. The earnings attributed to each year of pre 2014 pensionable service, and indexed thereafter, will be the December 31, 2013, 3-year highest average salaries calculated under the *Civil Service Superannuation Act* prior to the plan amendment. Annual indexation of salaries is guaranteed for 2014, 2015, and 2016 at a rate of 1.5 percent per annum for the Civil Service Superannuation Fund. After 2016, salary indexing will be contingent on the plan having a funded status greater than 100 percent and limited to the assets determined to be available for that purpose.
- Annual indexation of deferred and retiree pensions is guaranteed for 2014, 2015, and 2016 at a rate of 1.5 percent per annum for the Civil Service Superannuation Fund. After 2016, indexation of deferred and retiree pensions will be contingent on the plan having a funded status greater than 110 percent and limited to the assets determined to be available for that purpose.
- Commencing January 1, 2019, the unreduced retirement rules will change such that pension earned on pensionable service credited after 2018 will be payable on an unreduced basis when a member, at his or her date of retirement, is at least 62 years of age or at least 55 years of age with 32 or more years of pensionable service. The pre-amendment unreduced retirement rules will continue to apply to pensionable service credited prior to 2019.
- After 2016, contribution rates will vary as follows depending on the funded status of each plan as measured at each valuation date:
 - If the funded status falls below 110 percent, employee and employer contribution rates will increase by 1 and 2 percentage points, respectively, and these rates will remain in force until the funded status improves to at least 115 percent.
 - If the funded status falls below 100 percent, the employer contribution rate will increase by a further 2 percentage points in addition to the rate increases for a funded status below 110 percent. This additional employer contribution rate increase will remain in effect until the funded status improves to at least 105 percent.
 - If the funded status improves to 135 percent or higher, employee and employer contribution rates will decrease by 1 and 2 percentage points, respectively, until the funded status falls to or below 130 percent.
 - If the funded status improves to 145 percent or higher, the employer contribution rate will decrease by a further 2 percentage points in addition to the rate decreases for a funded status at or above 135 percent. This additional decrease will remain in effect until the funded status falls to or below 140 percent.

**PRINCE EDWARD ISLAND
CIVIL SERVICE SUPERANNUATION FUND**

Notes to Financial Statements

March 31, 2013

10. Subsequent Events (continued...)

a) Plan Amendments (continued...)

- The benefits guaranteed by the Province no longer include indexation after 2016 as it has been made contingent on the plan's ability to pay for those benefits. The funding of deficits under this new guarantee is the Province's responsibility with special payments being required whenever the plan has a funded status below 100 percent and the contributions required, as noted above, are not projected to achieve a funded status of at least 100 percent within 5 years.

The above plan design and actuarial assumption changes are estimated to potentially decrease the Plans gross pension obligations.

b) Province of Prince Edward Island Master Trust

Subsequent to March 31, 2013, Executive Council approved changes to the Statement of Investment Policies and Procedures (SIP&P) for the Province of Prince Edward Island Master Trust. Proposed changes reflect a revised interim benchmark for asset mix under the SIP&P to reflect a higher level of fixed income holdings and an amendment for the re-balancing policy within asset classes. It is anticipated that these changes will decrease the discount rate assumption going forward and result in a significant increase in the accrued pension obligation.
